### **DETAILED ACTION**

Due to the complex nature of the claims, no request for an oral election is being made. Please see MPEP 812.01

#### ***Election/Restriction***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-2, 4-12, 14-20, drawn to a monoclonal antibody, pharmaceutical compositions thereof and immunoassays, classified in class 424, subclass 180.1+.
  - II. Claims 3, 13, drawn to hybridomas, classified in class 435, subclass 325+.
2. The inventions are distinct, each from the other because of the following reasons: Groups I and II are patentably distinct because Group I is drawn to monoclonal antibodies, compositions thereof and immunoassays using the claimed monoclonal antibody. Group II is drawn to hybridomas which are capable of producing the claimed monoclonal antibody. Groups I and II are structurally distinct inventions and the search for one is not required for the other. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1614

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
